

The video you'd prepared for us was amazing! I really enjoyed it. It was my favorite historical film.

I am a history fanatic because my grandfather always tells me fascinating stories of the wars he fought in. He also told me about homesteading in Montana so this was a refresher for me.

I hope to study with you in the future.

A student at Sentinel,

Thank You!

The video was great! It was so informal to me because I am not big on history but when I saw this movie I was intense with words and the captions that I actually was excited and happy that I watch such a great Sedition movie. Not only after watching the movie was I just thrilled I actually kept the words and pictures in my mind for the rest of my life probably.

Thanks of bunch for taking ~~the~~ time to show our freshman class first!

Your admire,

Thank you so much for previewing your movie on sedition to our class. The movie was very interesting and I enjoyed it. Although I do not have any German ancestry, I think it is quite an amazing thing you accomplished. Even though the people accused of sedition are not alive today, I know they would have been very happy to know you pardoned them.

Thank you movie MAKERS Of: Jailed for their words.

When I came and saw that movie I was amazed that that happened that was part of history I had not heard much about. I was amazed and acutely angered. Thank you for pardoning them with a diploma to their families. Thank you for the movie!

Dear movie people,

Thank you for showing us that video about Sedition in Montana. I really enjoyed that video, because it really helped inform a lot of us about what happened in Montana. The video was very entertaining, I really liked it.

I thought that it was interesting that people actually got put in to jail and fined for speaking their minds and telling what they think. Thanks.

Thank-you for showing us the movie "Jail For Their Words". I never knew there was a sedition act in Montana before watching this movie. At the beginning of the movie when I first learned about the Sedition act I never thought it would affect so many people or women.

I enjoyed watching this movie because I learned so much stuff I didn't know before. I thought it was amazing that so many people were put into orphanages. I also thought it was amazing what happened to Herman's family.

Dear video people,

I really enjoyed your film on Sedition in Montana. I loved all the pictures of families and individuals you used, it really brought the movie to life. It feels really cool to have been the only audience to see the movie so far. I think other people will really like it. Thank you for this experience, it was definitely worth seeing.

Dear Journalists at the UM... Their work...

I never knew that this ever happened, people being put in jail for not wanting to do anything with a war. When I saw the film I wanted to go back in time and set them free. From that film I am now taking a huge interest into segregation and reading Hattie Big Sky very fast. Thank you for teaching me a valuable lesson - I can say and believe what I want.
